NHS England (NHSE) have approved the patient group direction (PGD) for use by community pharmacy owners during the forthcoming flu vaccination season. This follows publication of the national protocol earlier in the week by the UK Health Security Agency.

The publication of both documents, follows updates to the **flu service specification** following the amendment to the National Flu Immunisation Programme 2024/25 letter, in response to **the news** that the Sanofi recombinant quadrivalent influenza vaccine (QIVr) will not be available for the 2024/25 flu vaccination programme.
